Health information

There has a saying "early to bed early to rise" it's really true. It's very important for maintain a healthy life. Always try to go to bed early and get up early. It's a great daily health tip. No doubt how important physical exercise is. For a healthy life, you must do physical exercise regularly. A thirty-minute walking is enough but it's good if you can one hour every morning or evening. You can join your nearby physical training institute for a good guide. Cardio exercise is another daily health tips to keep healthy. Cardio exercise means cycling, running, swimming, dancing, hiking, etc. Try to do that when you can. Drink sufficient water every day is another good daily health tips. Take a minimum of eight 8 glasses that means 2 liters per day. But it's better if you can take more than that. Every adult men have about 60% of their bodies are water. So you may understand how important water is. Junk foods are very harmful to human health. Though it is tasty and yummy it's not good for your health. It causes many health problems like overweight, poor nutrition, poor health. So try to avoid junk foods. If you take alcohol it's time to cut it from your life. Everybody, we know alcohol is really harmful to the human body. Taking alcohol causes many problems like brain, heart, liver problems and it's weakening your immune system. And one of the biggest bad effects is alcohol causes Cancer. Smoking is another bad habit. It's also caused many health problems like alcohol. So you must avoid smoking. Though it's not so easy try to avoid it. Increase taking fresh and green vegetables and fruits. It's very essential for daily health tips. Eat green leafy vegetables, tomatoes, sweet potatoes, berries, dark chocolate, white tea, soybeans, flaxseeds, broccoli, and cabbage. It's given you more nutrition and makes you healthy. Think positive – Take everything easy. Never do tension. Because tension can't solve anything, but it's increase your healthy problem

BLOCKS:

The MIT App Inventor interface for the 'Medicinereminder' app. The 'Blocks' panel on the left shows the 'Built-in' category with various blocks like Control, Logic, Math, Text, Lists, Dictionaries, Colors, Variables, Procedures, Chatbot, WebView1, Button2, Button1, TextToSpeech1, and PhoneCall1. The 'Viewer' panel displays the following logic blocks:

- when `SpeechRecognizer1.AfterGettingText`
 - do
 - if `result` is `partial`
 - then `TextToSpeech1.Speak` with message `'So... How can I help you today?'`
 - else if `search` is `'I am good'`
 - then `TextToSpeech1.Speak` with message `'Okay, so what should I have to search on google?'`
 - set `WebView1.HomeUri` to `join('https://www.google.com/search?q=', get result)`
 - else if `search` is `'I am feeling sick today'`
 - then `TextToSpeech1.Speak` with message `'Ohh... so I should call to your family doctor?'`
 - else if `search` is `'yes please call to my family doctor?'`
 - then `TextToSpeech1.Speak`

The MIT App Inventor interface for the 'Medicinereminder' app, showing the 'Buy_medicines' screen. The 'Blocks' panel on the left shows the 'Built-in' category with various blocks like Control, Logic, Math, Text, Lists, Dictionaries, Colors, Variables, Procedures, Chatbot, WebView1, Button2, Button1, TextToSpeech1, and PhoneCall1. The 'Viewer' panel displays the following logic blocks:

- when `apollo_pharmacy.Click`
 - do
 - set `ActivityStarter1.Action` to `'android.intent.action.VIEW'`
 - set `ActivityStarter1.DataUri` to `'https://www.apolopharmacy.in/?variant=2&utm_sou...'`
 - call `ActivityStarter1.StartActivity`
- when `Netmeds.Click`
 - do
 - set `ActivityStarter1.Action` to `'android.intent.action.VIEW'`
 - set `ActivityStarter1.DataUri` to `'https://www.netmeds.com/'`
 - call `ActivityStarter1.StartActivity`
- when `truemeds.Click`
 - do
 - set `ActivityStarter1.Action` to `'android.intent.action.VIEW'`
 - set `ActivityStarter1.DataUri` to `'https://www.truemeds.in/'`
 - call `ActivityStarter1.StartActivity`
- when `Practo.Click`
 - do
 - set `ActivityStarter1.Action` to `'android.intent.action.VIEW'`
 - set `ActivityStarter1.DataUri` to `'https://www.practo.com/'`
 - call `ActivityStarter1.StartActivity`

The MIT App Inventor interface for the 'Medicinereminder' app, showing the 'Chat' screen. The 'Blocks' panel on the left shows the 'Built-in' category with various blocks like Control, Logic, Math, Text, Lists, Dictionaries, Colors, Variables, Procedures, Chatbot, WebView1, Button2, Button1, TextToSpeech1, and PhoneCall1. The 'Viewer' panel displays the following logic blocks:

- Initialize global `message` to `' '`
- Initialize global `name` to `' '`
- when `Button1.Click`
 - do
 - set global `name` to `TextBox1.Text`
- when `Button2.Click`
 - do
 - set global `message` to `TextBox2.Text`
 - call `CloudDB1.AppendValueToList` with tag `'chat'` and item to add `join(get global message, get global name)`
- when `CloudDB1.DataChanged`
 - do
 - set global `chat` to `get value`
 - set `ListView1.Elements` to `get global chat`
- when `Chat.Initialize`
 - do
 - call `CloudDB1.GetValue` with tag `'chat'` and value if tag not there `create empty list`
- when `CloudDB1.GetValue`
 - do
 - set global `chat` to `get value`
 - set `ListView1.Elements` to `get global chat`
